February 19, 2019

Dear Patient

It is with very mixed feelings that I am announcing my retirement on August 30, 2019. I have been privileged to know and work with you, in many cases for 39 years. We have shared both happy and sad times, and I will miss being part of your and your family's lives.

I have also been fortunate to work in a supportive community, and with a committed group of fellow physicians, nurses, social workers and other staff.

I am happy to report that Dr. Ashley Thomson will be taking over my practice. Some of you may have met her. She was with our practice as part of her training in family medicine and has worked as a locum on and off since then. Ashley is a caring and competent physician and I know I am leaving my patients in good hands.

Unfortunately, Dr. Nicola Crawford, who has been sharing my practice the past two years, will also be leaving the end of August; she will be pursuing other adventures with her family.

Wishing you all the best in the future.

Yours Truly

Dr. Barbara McMeekin
